HIGH PERFORMANCE ARCHITECTURAL HINGES

Introducing the new Nico LOADPRO range of high performance architectural hinges – high specification butt and lift-off hinges for timber or composite doorsets.

The new products complement the established Nico 4715 lift-off hinge, offering a range of maintenance-free hinges suitable for most domestic and commercial applications.

Designed to meet the exacting demands of today's CNC machine preparation, the LOADPRO range is precision manufactured in our Essex factory, with all products conforming to the latest European standard for single axis hinges and CE marked for fitting to fire and escape doors.

All LOADPRO hinges are performance guaranteed, and available in a choice of plated steel finishes, including Supercoat 500 for added corrosion protection. For special requirements, Nico can offer satin or polished stainless steel or powder coated finishes to match the RAL colour range.

FEATURES

- Comprehensive Range
- Precision UK Manufacture
- Maintenance Free
- Minimum 10 year Performance Guarantee
- Choice of Mild or Stainless Steel
- CE Marked
- Up to Grade 13

THE FITTING CHOICE

TECHNICAL DATA

CHOICE OF FINISHES

Steel hinges are available in a choice of finishes according to the appearance and level of corrosion protection required: Zinc Plated; Zinc/Yellow Passivate; Satin Nickel; Electro-Brassed; and Nico Supercoat 500.

Stainless steel hinges are available in Satin or Polished finishes.

APPROVALS

All hinges will comply with the requirements of BS EN 1935:2002 and fire test situations in accordance with the requirements of BS EN 1634-1:2000.

Test reports and/or certification will be available on request.
