

HINGES & FITTINGS

NiCo

THE FITTING CHOICE

A TRADITION OF QUALITY & SERVICE

For over half a century, Nico Manufacturing has been one of the UK's leading manufacturers of hardware, producing a range of quality hinges and fittings for the building, DIY and furniture industries.

INNOVATIVE DESIGN & DEVELOPMENT

At Nico's dedicated Technical Centre, skilled and experienced design engineers use the latest technologies in the design and development of products that offer the very best in performance, efficiency and reliability – including special patented features.

A proactive new product programme meets changing industry and customer needs, and regular testing ensures that every product more than meets the most stringent requirements for its use and application.

STATE-OF-THE-ART MANUFACTURING & FINISHING

In order to maintain Nico's high standards of quality, every part of the design, manufacture and finishing process is carried out in-house.

All tooling is designed and produced in the Nico tool room and an on-going investment programme in plant and equipment ensures efficient, cost-effective production and environmentally-friendly operation. The new automatic plating line, for example, combines high volume throughputs, improved quality and a wider choice of finishes with an effluent recycling and treatment system.

EXTENSIVE PRODUCT RANGE

Nico produces a comprehensive catalogue of its most popular products – such as furniture fittings, castors and building hinges – for immediate supply. A vast selection of other special items are available to order.

CUSTOM DESIGN CAPABILITY

Thanks to its product development and tooling capability, Nico can undertake the design and production of completely new products to meet customer requirements. It also offers a cost-effective service for the manufacture of fittings to existing customer specifications.

PRODUCED & APPROVED TO THE HIGHEST STANDARDS

Nico is approved to ISO 9001: 2000 for its design and manufacturing systems. Nico hinges and fittings are produced and tested for compliance with British Standard BS EN 1935. Certain products, such as the Load Pro Heavy Duty Door Hinge and 451 Pattern Strong Butt Hinge are also fully accredited and CE marked.

FAST, FRIENDLY SERVICE & SUPPORT

Every aspect of Nico's business is geared to providing the very best in sales and service support. Production is flexible, enabling us to efficiently satisfy changing requirements, including scheduled deliveries. And the experienced Nico Sales Team, whether in the Sales Office or in the field, are readily on hand to process enquiries or provide advice and assistance – with a smile! To contact them, just call:
